Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Discussion addressing applicant's queries of Final Rejection practice. Applicant discussed functional differences between the applicant's described device (not claimed device) and the device of Fusillo (U. S. Patent No. 5,473,796, applied in the final Office action mailed 4/12/2007). Applicant also expressed that the claim would be amended to further define the claimed device structurally different that Fusillo. Applicant was informed that any amendment, in a reply to the final Office action, to any of the claims resulting in changing the scope of the claimed device would constitute new issues, and an Advisory Action shall be forth coming indicating the new issues. Applicant was informed that a filing of a Request for Continued Examination (RCE) in compliance with 37 CFR 1.114 would be a procedure to submit the amendment for entry, since prosecution of the current application status is closed. (M.P.E.P. 706.07(h) [R-5] Request for Continued Examination (RCE) Practice).
